RAYMOND

Live town in a rich agricultural and stock-raising district. A good place to make your home.

Vol. 31 THURSDAY, JUNE 30, 1932 No. 17

Improvements In Brewerton Block

The past three weeks or so have been busy ones for Bock, where a number of improvements have been made. Workmen busy in the Security Block, where a number of improvements have been made. A bath room has been installed for the convenience of guests and renters, and several of the partitions are being moved and alterations effected to make the upper floor more convenient. Repairs also have been made to the roof and all in all, the work being done will make this block a desirable asset to the town. The owners are to be congratulated in their industry in making this block fully modern.

Wedding Bells

EVESON — ADAMS

The wedding took place quietly at Lethbridge on Friday, June 24 of Miss Leverna Adams of Warner, to Mr. Charles Eveson of Raymond. The ceremony was performed by Pres. George W. Green and the attendants were the sister and brother of the bride, Miss Norma Adams and Lavor Adams, both of Warner. Mr. and Mrs. Eveson will take up their residence at Raymond.—Leth. Herald

Grasshopper Supervision

Chas O. Asplund has been named by the Provincial Government to supervise work in connection with the grasshopper pest in the Lethbridge district, and any complaints, or any requests for assistance in coping with the situation, should be reported to Mr. Asplund. He will have all south of Lethbridge, and a station or two north and east of Lethbridge, so that it will be only through co-operation on the part of the farmers that effective and consistent work can be done in meeting the situation in case of any severe outbreaks in the district.

News Notes

50 FATHOMS DEEP July 1st at the CAPITOL THEATRE

* * *

Mr. and Mrs Chas O. Asplund were in Lethbridge on Thursday.

* * *

F. A. Lind and family were Lethbridge visitors on Wednesday of this week.

* * *

JOE E. BROWN in LOCAL BOY MAKES GOOD, SATURDAY at the CAPITOL THEATRE.

* * *

H. A. Coombs of Cardston and Mr. Hay, representive of the Canadian General Electric Co., were Raymond visitors on Tuesday of this week.

* * *

H. Duncan Weaver and family of Chicago are here visiting with relatives and friends for the summer months.

* * *

Elders Cluster Nilsson and Earl Scoville were the speakers in the Second Ward Sacrament meeting on Sunday night last.

* * *

Mr. and Mrs. Alma Hancock and Mr. and Mrs. S. I. May attended Sacrament Meeting in Stirling last Sunday night, being there on Missionary work.

* * *

50 FATHOMS DEEP July 1st at the CAPITOL THEATRE

* * *

The Raymond Juniors, under the management of Rayo Woolf will journey to Warner on Wednesday, July 6th, to take part in a Junior Baseball Tournament there.

News Notes

50 FATHOMS DEEP July 1st at the CAPITOL THEATRE

* * *

See you at the Stampede. It will be bigger and better than ever before.

* * *

Mr. and Mrs. Hayden W. Low of New Dayton were Raymond visitors over the week-end with friends and relatives.

* * *

The Golf Course of the local club is very popular and every day and evening particularly, is a busy with local Walter Hagens.

* * *

Following oppressive heat on Wednesday and Thursday of last week, Friday was cooler, and Saturday nice and cool and very pleasant.

* * *

School examinations are over now and the students can whoop and yell in anticipation of a couple of months of mental freedom without worrying about homework and preparation.

* * *

One of Ray Knight's best prospective outlaw horse broke its back in the corrals at the Kilreally ranch this week when it was trying to shake off the testing saddle.

* * *

Everything is ready and everyone is keyed up for the Big Day tomorrow, Dominion Day, the great Stampede and Ball Games concluding with a Dance at night will give every one about all they want in one day's program.

* * *

The Border Post 73, American Legion at Sweet Grass is sponsoring an International Good-will Frolic and Dance in Court on the evening of July 4th. It is expected that thousands from all over Southern Alberta and as far south as Great Falls will be there to dance to the music of Len Davis and his orchestra.

SUPPORT THE BIG STAMPEDE

"Going to the Stampede?" "No, the price is to d - - high." Such expressions have been heard rather frequently of late, and while there may be some slight justification in it, still the price set for the day was set by the majority vote of the Board of Trade, which organization is supposed to represent the people of the town. So, that in plain words, everyone in town who has interest enough in public affairs has had the opportunity, or at least could have had, in saying what admission to the Stampede Grounds would be. And, too, in most other towns for a similar program, you would not get away any cheaper. Some towns charge less at the gate, but you pay for Grandstand, or for Parking, and in the end you get away no cheaper than here.

Then, again. This show is put on by the Stampede Committee of the Board of Trade, and every penny that is made, if any is made, will be used to make Raymond town and district a better place in which to live. If you support the Stampede for no other reason, you should support it because it is put on by the Board of Trade, and is for these many years, the Board of Trade has been working for, and getting favors from Governments and big business, that without such an organization, we could never hope to receive. Think these things over. We grant you dollars are hard to get. But if the men who are organizing this Show can spend their time and effort free, and pay their dollar on top of all this to get in, surely every one else can afford a dollar to go and sit in comfort and enjoy the program.

With Ray Knight as Manager, people can be assured of a fast moving and thrilling show, and as usual he has his bunch of outlaw horses waiting to battle it out with the men who dare to ride. Mules, wild steers, and all the rest of it will be there to furnish the fun, and if the Wild Steer Cart Race don't make you gasp and hold your breath, we miss our guess.

Take in this show if for no other reason, then do it to show that you are loyal to the organizations that build your town.

HICKEN FAMILY REUNION

The Hicken family had a family reunion on Saturday afternoon at the family home here in Raymond, when a large number of the children were present, and a real enjoyable and social time enjoyed by all.

Besides the children still living at home, Dr. and Mrs. Frank Low of Helper, Utah; Mr. and Mrs Rolan E. Hicken of Cardston, and Mrs. McKenzie of Medicine Hat were all present.

Visiting galore, and a splendid dinner occupied the time of the afternoon and early evening, prior to the return of several of the members of the family to their homes, and they will all carry with them remembrances of a very happy and enjoyable reunion with the remainder of the family here.

L. D. King and the other boys who went to Calgary with him, returned home Friday night They report a nice trip, and from what they could observe the city is doing more than was expected in the way of retail business the garages especially all seeming to be quite busy.

BAKERY WINDOWS BROKEN

Early Monday morning the Chevrolet truck belonging to J. H. Wall run across the sidewalk and crashed into the front of the Bakery, shattering both windows into small bits and spoiling both pieces of plate glass completely.

Wm. Smith has been running the truck for the past several days hauling cinders from the Factory to fill in in front of J. H. Elder's new Service Station, and a load had been unloaded, and then he pulled in front of the Bakery to get his mail. George Brumen was in the truck with him, and when Smith started the car, George pulled back the clutch lever and threw it into gear, and the car shot across the walk with the above disastrous results.

A peaceable settlement was made as to the replacement of the broken glass, and all will be well when this is accomplished. In the meantime, the windows are boarded up.

Luckily no one was passing on the street at the moment, this happened, or they may have been killed. The driver, Smith, tried to get control of the truck and save a catastrophe, but he was too late, and the front springs left their imprint on the window sill where the truck tried to go right on into the building.

Local Athletes Make Good Showing at Calgary

Bishop Walker returned home Sunday night with Bruce Galbraith, Harris Walker and Gray Kirkham, who had all taken part in the Olympic try outs at Calgary on Saturday. The boys all gave very good account of themselves, despite the fact that they failed to win out in their events.

Bruce was first in the Pole Vault, clearing the bar at 10 ft. 6 inches. He also broke the Provincial record in the Running High Jump, and was then beaten by 3-4 inches by Willets of Edmonton, when a new mark was set at 5 ft., 11 and 1-4 inches. Bruce was second.

Gray Kirkham was second in the half mile, being beaten by Al. Imrie of Calgary, who made the run in 2 minutes and 5 seconds.

Harris Walker, who entered in the Decathlon, was beaten by Geo. W. Sutherland, of Calgary, who has several more years experience and work behind him than Harris has. In the Decathlon events Harris won four and Sutherland 6, giving Sutherland the edge by 300 points out of a possible 10,000.

Roy Wolsey of Magrath, and Glen Hamilton, George Walker and Ian Henry of Lethbridge all made good showings in the meet.

Congratulations boys, and better luck next year in these events. Southern Alberta people are proud of you all.

News Notes

Mrs. Annie Hall of Magrath was here on Monday visiting with relatives and friends.

* * *

A large number of Warner people are expected at the Stampede tomorrow according to a letter received from there by the Board of Trade this week.

* * *

Patronize the Stampede folks. You at least owe this much to your town and your local Board of Trade. No one makes any money out of this Stampede, and if any is made, it comes back to all of us in public service rendered by the Board of Trade.

NOTES ON PRIESTHOOD MEETING

The regular Priesthood and Board Meetings of the Taylor Stake of Zion were held in the Stake Home Sunday last, in the absence of Pres. H. S. Allen in Salt Lake City, Pres. C. H. Snow took charge of the meeting.

A number of changes were reported because of other duties, Misses Velma Meldrum and Vera Miller were released from the Stake Sunday School Board. The Genealogical Convention for Magrath was announced for Saturday and Sunday, July 9 and 10, and Bishop Christensen and Archibald F. Bennett will be present to conduct the classes.

Louis Brandley announced a Golf Course at Camp Kootenai in Pass Creek Canyon for July 21 to August 3, and that in connection with this from Aug. 2 to 10 a week's outing of Taylor Stake Boy Scouts was planned, and from Aug. 8 to 10th the annual Fathers and Sons Outing will be held at the same place. Asked all to keep these dates in mind.

Melvin King reported on the Glacier Peace Park Convention and complimented the King's and Eagle Scouts on the part they had taken in the ceremony.

Miss Velma Meldrum and W. A. Anderson both spoke on the Convent reported the Primary Convention work, and Mrs. Geneva Larsen which they all attended.

DOMINION DAY

Tomorrow Canada is celebrating her fifty-fifth birthday. Fifty-five long years since she became a self governing democracy. Preceded by wars between settler and Indians and conflicting old country governments, she arrived on July 1st, 1867 to the stage where a constitution was formulated, and the Fathers of Confederation amalgamated Upper and Lower Canada and the Maritimes into the Dominion of Canada.

Let your mind run back over Canadian History and pick out a few of the important and far reaching events in our history. The gradual pushing westward of the frontier of civilization. The settlement of the Red River Valley, and the wonders of the district thus opened up, the organization of the North West Territories and the ups and downs of that district. The Riel Rebellion, and the surge westward again following that event, and in between times the linking of the Pacific and Atlantic Coasts with steel, to form a means of transportation and communication between the most distant points of our fair Dominion. Even today, new fields are being opened up, as witness the activity last year in the Northern part of Manitoba and the building of the northern railway to Churchill, on the Hudson Bay.

All of these natural developments over fifty five years and yet much to be done. The frontier is gradually receding. The beliefs and traditions as to climate, etc., are being proven false, and civilization is taking root, homes are springing up, and towns being built in sections where the faint hearted would never have started.

All these advances and progress made in the midst of peace. True we have had our fat and lean years. We have had our periods of discouragement and disappointment, but today Canada marches forward, greater than ever before in population and in wealth, offering to all the opportunity of becoming self-supporting and independent in any of the varied lines of industry one chooses to follow. Our natural resources are just tapped. Wealth unknown in mineral deposits rests in the everlasting hills awaiting the need for its unearthing, and bringing into use. Our water is just touched. Thousands of mountain streams await the brain and brawn of man to harness their power and convert it to use for manufacturing of various kinds. Million of acres of virgin agricultural land awaiting the plow to convert it into waving field of grain and fodder to feed the millions of cattle that should, more than they do, feature the farming practices of Canada. One could go on indefinitely and point out the opportunities that beckon in this Canada of ours. In population we are few in number but we are bound to grow.

Old world countries are becoming over populated. Our neighbors to the south are reaching the total of their supportable population. Unborn generations are going to look for new and fresh fields to conquer, and when they begin to seek, they will naturally look to Canada, the land of Promise. As citizens of this fair Dominion we'll have a deep responsbility to our own children, and to the children who may later decide to make this their home. For these fifty five years, we have been known as a people who obeyed and upheld the law. For all these years Canada has been known as a place where justice was met out, and where the long arm of the law always gets its man. Today, the police of Canada are respected everywhere for their fairness and unrelenting disposition in enforcing the law. This is a record worth preserving and worth making even better. Hold the banner of justice high. Let every man feel, and let his neighbor feel, that he is law-abiding and requests that everyone else do likewise, that as in the past we may be a haven for those seeking refuge from environments where law is but a name and just so is unknown.

We are and should be proud of our citizenship in this great country. We are living in peace and contentment, and safety. There have been internal bubbles in the way of strife and contention, but these have all been localized and soon settled, and from year to year we pursue our course in peace. This condition is only possible where there is a law abiding citizenry and a peace loving people. As Canadians let us go forward. Let us keep the heritage we have, and make our place amongst world nations even more enviable than it is today. If we can do this, we will have accomplished a good work, and can pass on to our posterity a heritage that is worth while and that as we have done, they may cherish and prize to the end of their days.

YE ED. CRASHES GATE

The editor stood at the pearly gate
His face was worn and old,
He meekly asked of the man of fate
Admission to the fold.
"What have you done," St. Peter asked,
"To seek admission here."
"Oh I ran a country printing plant
On earth for many a year."
The gate swung open sharply
As Peter touched the bell.
"Come in," he said "and take a harp
You've had enough of hell.
—Forest Free Press

"That's my week's wages. Are you going to take it?"
"Yes," said the footpad briefly.
"Then shoot a hole in my hat."
"What for?"
"I want to submit it as evidence to the missus. The last time I told her I was robbed it started an argument that kept me up until 2 o'clock in the morning."

Health Service

OF THE

Canadian Medical Association

Edited by

GRANT FLEMING, M.D., — ASSOCIATE SECRETARY

THE CHILD'S HEART

From the beginning of life, the heart must continue to function if life is to be maintained. The existence of every part of the body depends upon the blood which is brought to it by the pumping action of the heart.

It is obvious that all parts of the body will suffer if the heart fails to function normally. The health of the body as a whole is closely related to the efficiency of the heart.

When the child is born he may not have a sound heart. There may be some defect in its structure. The condition known as "blue babies" is due to defective structure of the heart. Babies with poorly formed hearts do not as a rule survive and when they do they require very special care. Among the children born with perfectly formed hearts, there are some who later develop or acquire some abnormal heart condition. Disease of the heart in children is particularly serious. It seems as if the undeveloped heart of the child is not able to withstand the stresses and strains which can be met by the mature adult heart.

It is also to be remembered that in childhood rapid growth goes on and this makes an extra demand upon the heart. At the same time the heart itself is developing into the larger adult organ. For these reasons it is obvious that during childhood the heart needs to be protected from those conditions which may damage this vital organ. Children with heart disease must be guided so that their lives will be conducted with more ease than is the life of the normal child. Greater care must be taken as regards food, fresh air and sunshine.

We all agree that it is much better to prevent than to cure. In order to prevent heart disease, we must eliminate as far as possible the conditions which lead to it. Because rheumatic fever is the outstanding cause of heart disease in children, great progress in the prevention of heart disease would result in the prevention of rheumatic fever. This means the treatment of diseased tonsils, teeth or other parts. Attention must be given to general health through proper food, plenty of fresh air and sunshine and sufficient rest. It is by building up a strong and healthy body and by giving prompt attention to any abnormal conditions which may arise that we may hope to prevent disease in childhood and bring the child into adult life with a sound body.

Questions concerning Health, addressed to the Canadian Medical Association, 184 College Street, Toronto will be answered personally by letter

OH, THESE MEN!

Men are what Women marry. They have two feet, two hands, and sometimes two wives; but never more than one collar or one idea at a time.

Like Turkish cigarettes men are all made of the same material; the only difference is that some are better disguised than others.

Generally speaking they may be divided into three classes; husband bachelors and widows. An eligible bachelor is a mass of obstinacy entirely surrounded by suspicion. Husbands are of three varieties: prizes, surprises and consolation prizes.

Making a husband out of a man is one of the highest plastic arts known to civilization. It requires science, sculpture, common sense, faith, hope and charity—especially charity.

It is a psychological marvel that a soft, fluffy, tender violet-scented, sweet little thing like a woman should enjoy kissing a big, awkward stubby-chinned, tobacco and hay-rum scented thing like a man.

If you flatter a man you frighten him to death, and if you don't, you bore him to death. If you permit him to make love to you he gets tired of you in the end; and if you don't he gets tired of you in the beginning.

If you believe him in everything you soon cease to interest him; and if you argue with him in everything you soon cease to charm him. If you believe all he tells you, he thinks you a fool; and if you don't he thinks you a cynic.

If you wear gay colors, rouge and a startling hat, he hesitates to take you out; and if you wear a little brown toque and a tailor-made, he takes you out and stares all evening at a woman in gay colors, rouge and a startling hat.

If you join in the gaeties and approve of his smoking, he swears you are driving him to the devil; and if you don't approve of his smoking and urge him to give up his gaeties, he vows you are driving him to the devil. If you are the clinging-vine type he doubts whether you have a brain; and if you are a modern, advanced, independent woman he doubts whether you have a heart, if you are silly, he longs for a bright maid; and if you are brilliant and intellectual he longs for a playmate.

"Gosh Ding the Men, Anyhow!"

—ANGELINE.

The Calgary Herald Moved its offices and plant last week from the Herald Building across the street to the Southam building. A new press was installed in the Southam building and Saturday's papers of week before last were printed on the new press.

Here and There

Premier Gordon S. Harrington, of Nova Scotia, has returned from his trip to Europe by the Empress of Britain.

Growth of all crops in western Canada is now vigorous and well advanced for the time of year, according to the latest weekly survey made by the Canadian Pacific Railway's agricultural department, and crop prospects in the West as a whole are encouraging.

Members of the British party touring the Dominion under the auspices of the British Columbian Government, arrived at Montreal aboard the Duchess of Bedford, travelled across Canada by Canadian Pacific rail and lake steamship, stopped over at Banff and will spend between June 15 and July 2 in British Columbia.

Delta Gamma, one of the most important Greek Letter organizations on the continent, is holding its annual convention this year at the Empress Hotel, Victoria, June 27-July 1. Stopping over at Banff, a Canadian Pacific special will carry delegates to the Pacific Coast from Chicago, while Canadian members from Montreal, Toronto and Edmonton will join the main group at Victoria.

If early promise is fulfilled, the Annapolis Valley should this year produce an even larger yield of apples than in 1931 when the total crop was close to a million and three-quarters barrels, is the opinion of leading fruit men of Kentville, N.S. The bloom this year lasted over ten days and attracted visitors by the thousand from Eastern Canada and the United States.

Miss Constance Regan, Middleburg, Va., established a record for women anglers on the Tobique River, New Brunswick, recently, when she took a 27½ lb. Atlantic silver salmon, the largest ever caught with a fly by a woman on that river. The record salmon taken in those waters by a male angler weighed 33¼ lbs.

Canadian Pacific standard time is standard time the world over. Prior to 1883, every town and city had its own local time, based on the sun, but in that year the suggestion of Sir Sandford Fleming, chief engineer of the Canadian Pacific Railway, that the world should be divided into 24 sections, one for each hour of the day, and that time within each of these areas should be standard, was adopted all over Canada and the United States. In 1884 the plan was also adopted in Europe after a conference held at Washington.

Gilbert Miller, architect, of Youngstown, O., has a grouch against windows and doors in office buildings and summer homes. He found both too narrow to admit a moose head with an antler spread of five feet five inches taken from a monster he shot near St. Jovite last season. "It looks," he wrote to A. O. Seymour, general tourist agent, Canadian Pacific Railway, "as though both the head and myself will end up in the garage." But that is the kind of trophy to be got in the forests of Quebec. Big heads and lots of them. (910)

A colony of Lilliputians inhabits a miniature city in a suburb of Berlin Germany. The midget citizens have planned their tiny homes not only for their own comfort but to exclude persons of normal height. Everything is on a small scale, small houses with small rooms filled with small furniture.

Replace worn tires with Firestone

SIXTY-SIX feet in one second—that's what you travel at 45 miles per hour. And what chance have you if a tire blows out?

Don't risk your life by driving on unsafe tires. Especially when Firestone tires are so low in price and give so much value. Think of it — 2 extra cord plies under the tread to give added strength and safety — gum-dipped cord construction — a scientifically designed non-skid tread of toughest rubber which combined give 40% longer tire wear *at no extra cost*. And remember they carry a lifetime guarantee.

Stop taking chances. Let us put on a new set of Firestone High Speeds today. Do it now.

CROP REPORT

General. In practically every important agricultural region in the Dominion the crops have been making excellent growth, although east of the Great Lakes rain will be needed in the near future if favourable prospects are to continue. Ideal weather throughout the prairie provinces has brought the grain along rapidly and wheat is now advancing into the shot blade stage in healthy condition. Moisture conditions generally are satisfactory at present. In Quebec crops are steadily progressing, though a general rain would be beneficial. In Ontario prospects for better than average crops have run dry weather, though conditions are still reasonably satisfactory. In the Maritime Provinces growth has been somewhat slow, warmer weather being needed. In British Columbia growing conditions have been excellent and prospects are good. Details follow:—

PRAIRIE PROVINCES

ALBERTA: North-eastern Area:—Recent higher temperatures have promoted growth of all crops. Wheat is 9 to 12 inches high with a heavy stand and is about 15 p.c. in the blade. Southeastern Area:— Warm weather with intermittent rains is producing rapid growth of all crops. Some damage from cutworms is reported. Pasture is plentiful. West Area:— Early sown wheat averages 6 to 10 inches, with about 10 p.c. in shot blade. Moisture is sufficient SASKATCHEWAN: Northern Area: Wheat is stooling satisfactorily, with a healthy appearance. The average eight is 10 inches. Coarse grains are somewhat patchy. There is sufficient moisture for rthe present Southern Area:—Wheat is coming into shot blade at an average height of 12 inches. Blown fields have made fair recovery, although the crop is patchy in some districts. Coarse grains are making fair, but slow progress, due to lack of moisture at seeding time. In the southeastern area grasshoppers are becoming very troublesome. Rain is needed in some districts. MANITOBA:—Wheat is growing under favorable conditions and is largely in shot blade. Moisture is satisfactory, and prospects much better than for past two years. Cutworms and grasshoppers have caused some damage, but good rains and preventive measures are helping to control the threat. Coarse grains are backward in some districts.

PROVINCE OF QUEBEC

Spring grains are making satisfactory progress. Hay promises an average crop. Root crops are in good condition. Apple orchards showed a heavy blossom and small fruits are progressing well. Pastures are still ample.

PROVINCE OF ONTARIO

Fall wheat is in head and is exceptionally promising, but some smut is showing up. Clovers are heavy, timothy is fair. Pastures are in fair condition. Spring grains, peas, beans corn, roots and small fruits have suffered from drought and yields will be seriously reduced unless good general rains occur within a few days. Grapes are promising. Tobacco planting has been completed and the stand is good with little damage from cutworm.

MARITIME PROVINCES

Growth of spring grains has been slow owing to cold weather. Hay is showing good growth and pastures are reported in good condition. Apples are setting well and small fruits give good promise. Root crops after a slow start, are now making more satisfactory progress.

PROVINCE OF BRITISH COLUMBIA

Grain is now showing satisfactory growth and a 100 p.c. hay crop is now being harvested. Heavy crops of roots and vegetables are indicated. The strawberry crop is about 80 p.c. of average Early varieties of cherries will be moving in a few day A 95 p.c. is estimated. Indications continue excellent for an above normal apple crop; pears, plums and peaches are expected to yield about 95 p.c of average. Tomatoes are growing rapidly and an 80 p.c crop is in sight The potato yield is expected to be over one hundred percent.

MODEL OF PRINCE OF WALES RANCH WILL BE BROUGHT TO CANADA

"Visitors should take the opportunity of seeing the model of the "E.P." ranch, the Canadian home of the Prince of Wales, as it is shortly to be removed to Regina, Saskatchewan, for the World's Grain Exhibition and Conference. This model is near the main entrance, and represents about 75 acres of that portion of the ranch which includess the homestead." — Southwark Recorder, England.

Howl, Wolves, HOWL

Jim Curran, Editor of the Sault Daily Star, believes with Old Sam Martin that "a man who says he has been et by a wolf is a liar".

Jim Curran, as all the world knows, is an expert on wolves, so much so, indeed, that he has persuaded Sault Ste. Marie to hold a Wolf Week, July 25-30. That is the kind of a week it's going to be. Jim Curran, the wolf expert, says it will be worth attending; that the Sault is the friendliest town in Canada, and that respectable strangers will be welcome.

Plug hats will not be practical headgear during Wolf Week at the Sault. This is a warning, and is understandable at a show where the background is totally composed of timber wolves, Hudson Bay Barbecues, Indians and whiskers.

Jim Curran and his fellow-citizens of the friendliest town have cornered the world's best professional long distance swimmers for some real racing, and have persuaded the Ojibway Indians to produce a riverside version of "Hiawatha".

A survey of the Wolf Week programme reveals a combination of sentiment and excitement. Governor Roosevelt of New York State has presented the citizens with a British flag taken by the U. S. troops when they burned the Sault in 1814. The flag will be hoisted with appropriate ceremonies. The excitement comes in when the visitors will be invited to amuse themselves running the Sault Rapids in canoes, attending Algoma Wolf Club dinners, and sympathizing with the unlucky winner of a bear, which animal, Jim Curran proposes to raffle in lieu of one of his beloved wolves. The Algoma Self-Denial Club has added three pleasant features to the programme. The members of this club never deny themselves anything, and they advise that there are no perish cops in the Sault; that their city is only an overnight ride from Toronto on the Canadian Pacific's liveliest train, and that they still serve cheese with the apple pie in the Sault, which Jim Curran says is built beside Lake Superior in the great Algoma forest, near the timber wolves.
